SUMMARY

- Senior Product Analyst with 6+ years of experience driving growth, pricing strategy, and experimentation at high-scale B2B SaaS companies. Specialized in turning ambiguous product and monetization problems into measurable outcomes through experimentation, usage analytics, and AI-powered insight systems. Strong partner to Product, Engineering, and GTM leaders on roadmap prioritization and revenue strategy.

WORK EXPERIENCE

- Atlan, Remote** (Senior Product Analyst)
(Team: Engineering and Product, Jan'24 - Jan'26)
 - Drove feature adoption analysis and roadmap prioritization** by partnering with PMs to analyze post-release usage, customer feedback, and value realization, directly influencing future product investments.
 - Built AI-powered “talk-to-data” agents** on product and customer data, allowing self-serve analytics, reducing analysts' dependency, and handling **90% of recurring product and support questions autonomously**.
 - Led data-driven transition from license-based to asset-based pricing**, identifying key pricing levers through customer usage analysis, improving alignment with **customer value and long-term revenue scalability**.
 - Defined and operationalized company-wide scorecard metrics** (Usage, Implementation, Support, Customer Health), aligning product, engineering, and GTM teams on a shared view of business health and customer success.
- Postman, Bangalore** (Product Analyst)
(Team: Growth, Dec'20 - Jan'24)
 - Established experimentation and A/B testing** framework across Growth by building LaunchDarkly pipelines, experiment templates, and standardized statistical analysis, enabling faster product decision-making.
 - Led high impact experiments** including onboarding checklists and 14-day trials, generating **374K and 1.2M dollars in incremental ARR** respectively.
 - Defined activation and growth metrics** across squads, building self-serve dashboards in Looker and Amplitude to support quarterly goal-setting and performance tracking.
- OYO Rooms, Gurugram** (Analyst - BI and Data Science)
(Team: Online Revenue, Data Science, June'19 - Dec'20)
 - Owned online revenue and conversion analytics as SPOC, building **automated dashboards, burn tracking alerts, and leading RCAs** for issues impacting revenue.

SKILLS

- Product Analytics** : A/B Experimentation, Product Metrics, Data Storytelling, Pricing Analytics
- Data and Engineering** : SQL, Python, DBT, Snowflake, Data Warehousing
- Analytics and Visualization** : Looker, Amplitude, Mixpanel, Tableau, Google Analytics
- Advanced** : Agentic AI(Relevance AI, Glean, N8N), Talk-to-Data Systems, Statistical Modeling
